

# Winnie the Pooh

# Fish Card Game

## Playing Instructions

Shuffle the pack. Deal the cards one at a time until each Player has five cards. Place the rest of the deck face down in the centre of the table; this becomes the draw pile. Each Player in turn asks another Player if they have a certain card in their hand. The asking Player must have at least one of the cards in their own hand. If the Player being asked has the card, they must give it up. The asking Player's turn continues until they do not succeed in getting cards. When a Player does not have a card, they tell the other Player to 'Go Fish'. The asking Player then draws from the draw pile and play continues to the next person. When a Player matches all of the cards they are holding, they lay them in front of them and the Player with the most sets at the end of the game wins.
